SKILLS

- **Languages:** Python, C++, Java, C
- **Frameworks:** HTML and CSS
- **Tools/Platforms:** MySQL, Pandas, NumPy, Scikit-learn, Matplotlib
- **Soft Skills:** Problem-Solving, Time Management, Adaptability, Leadership

PROJECTS

Hand2Hand-P2P Campus Delivery Network | [GitHub](#)

May 2026

Project Overview:

- Addressed the challenge of inefficient peer-to-peer item transfers across campus, where students lacked a secure and organized way to request or offer delivery assistance.
- Engineered a full-stack delivery platform featuring secure authentication, real-time WebSocket communication, OTP-based verification, and role-based access for students and administrators.
- Enabled seamless campus deliveries through live tracking, mission-based task management, and an XP reward system that improved user engagement and platform reliability.

Tech stacks used: React.js, Vite, Node.js, Express.js, MongoDB, Socket.io, JWT, HTML, CSS, JavaScript

AI Driver Monitoring & ADAS System | [GitHub](#)

Apr 2026

Project Overview:

- Recognized the need for continuous driver monitoring to reduce accidents caused by fatigue, distraction, and loss of attention.
- Leveraged computer vision techniques with MediaPipe Face Mesh and OpenCV to interpret facial landmarks, eye movements, head orientation, and yawning patterns in real time.
- Delivered an intelligent monitoring system capable of issuing instant alerts and assisting ADAS functionalities to improve driver awareness and on-road safety.

Tech stacks used: Python, OpenCV, MediaPipe, NumPy, Computer Vision, Machine Learning

PrepSync – Academic Resource Management Platform | [GitHub](#)

Feb 2026

Project Overview:

- Identified the challenges of scattered academic resources and inefficient communication among students, faculty, and administrators.
- Implemented a centralized platform with role-based access, secure authentication, section-wise content management, file uploads, and administrative analytics.
- Simplified academic collaboration by providing organized, searchable, and easily accessible learning resources across the institution.

Tech stacks used: React.js, Vite, Node.js, Express.js, SQLite, Multer, HTML, CSS, JavaScript

TRAINING

C Programming Language – Live Summer Training| CSE Pathshala | [LINK](#)

Jul 2025

- Completed an intensive 35+ hour live online training program on C programming
- Gained hands-on experience through assignments, tasks, and a final assessment
- Awarded a Certificate of Achievement for satisfactory performance
- Built mini-projects and algorithms in C to strengthen logic-building and debugging skills

30+ Hours Live Ethical Hacking Industrial Training | Code Sprint| [LINK](#)

Mar 2024

- Completed 30+ hours of live industrial training in Ethical Hacking
- Gained hands-on exposure to cybersecurity fundamentals and vulnerability assessment
- Learned network security concepts and basic penetration testing techniques

CERTIFICATES

- Privacy and Security in Online social media- NPTEL | [LINK](#) Nov 2025
- Build Generative AI Apps and Solutions with No-Code Tools- Infosys | [LINK](#) Aug 2025
- Computational Theory: Language Principle & Finite Automata Theory- Infosys | [LINK](#) Aug 2025

ACHIEVEMENTS

- Demonstrated strong problem-solving skills by achieving 5 stars in Java on HackerRank and completing 100+ LeetCode problems across difficulty levels Nov 2025
- Secured 4-Star Java Badge on HackerRank, demonstrating strong problem-solving and programming skills Sep 2025

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; Since August 2023
- **Sri Chaitanya Junior College** Visakhapatnam, Andhra Pradesh
Intermediate; Percentage: 80 Jun 2021 - Mar 2023
- **Sri Chaitanya Techno School** Visakhapatnam, Andhra Pradesh
Matriculation; Percentage: 100 Jun 2020 – Apr 2021
